

INTERSTATES

AT A GLANCE

Interstates delivers trusted electrical construction, engineering, and control systems solutions that enhance efficiency, improve safety, and drive operational excellence. With 70+ years of experience, 1,500+ team members, and nationwide locations, we provide practical, results-driven support for industrial and processing clients.

A CULTURE OF SAFETY

Your team's well-being is our priority. We foster a proactive safety culture that goes beyond compliance, ensuring a secure work environment and helping every team member return home safely.

INDUSTRIES WE SERVE

 Consumer Packaged Goods	 Data Centers & Mission Critical	 Energy & Chemical Bio-Energy Oil & Gas Solar Power	 Food & Beverage Breweries Dairy Processing Meat Processing
 Value-Added Agriculture Animal Feed & Pet Food Flour Milling Oilseed Seed & Grain	 Warehouse & Distribution Cold Storage Material Handling	 Water & Wastewater	

PROVEN EXCELLENCE

Recognized as a top contractor and system integrator, Interstates has earned industry awards for innovation, safety, and project execution. Our commitment to excellence means you can trust us to deliver the best solutions for your business.

SOLUTIONS THAT WORK FOR YOU

ELECTRICAL CONSTRUCTION & ENGINEERING

We'll do whatever it takes to complete the most complex industrial electrical projects safely, on budget, and on schedule. From preconstruction planning and prefabrication to installation and start-up, our engineering team will develop practical, constructible designs that support Design-Build or Plan & Spec delivery methods. Whether you need low- or medium-voltage power distribution, lighting, or grounding systems, we offer solutions that provide the most value.

INDUSTRIAL AUTOMATION

Whether you're implementing new production or retrofitting existing facilities, our turnkey system integration approach combines deep technology and industry experience with your unique operational data to improve output, quality, safety, and bottom line.

MAINTENANCE & SUPPORT

You need your systems to run efficiently, reliably, and consistently. From proactive support, to security measures, to standardized programs, you can easily access Interstates' wealth of expertise.

OPERATIONAL TECHNOLOGY

Protect your operations from cybersecurity threats while improving system efficiency. A tailored security roadmap and clear visibility into cyber risks help you lower business impact from cyber incidents, build confidence in your security plans, and stay protected without hindering operational performance.

MANUFACTURING & PREFABRICATION

We do more than build control panels, modular power solutions, and electrical skids. With our turnkey approach from planning and design through delivery and integration, we simplify complexity and bring greater certainty to your project.

STUDIES & AUDITS

Interstates helps you proactively identify issues before they lead to downtime or safety concerns by providing data, documentation, and recommendations to inform your next steps. You can plan for long-term success and safety with expert guidance from Interstates.
