

# ELECTRIC ROOM Rx

## What is an Electric Room Rx?

Electric Room Rx is a unique process from Interstates. It starts with an electrical system evaluation to assess the condition of your electrical infrastructure and provides recommendations for upgrading or replacing electrical equipment within the existing electric room footprint. By proactively assessing the status of your existing electrical systems and determining potential improvements, you can reduce the risk of future downtime, damage, or injury.

### The process includes:

Evaluation of your system  
with diagnostic tools

A report on findings  
and conditions

Recommendations for  
improvements

## Did You Know?

- | Each year, 2,000 workers are admitted to burn centers for injury caused by arc flash.
- | At least 22% of electrical repair costs are extra because they are unplanned.
- | Average downtime costs in the food processing industry is \$30,000 per hour.

## Benefits & ROI

### SAFETY

***Proactively protect your people and property.***

By regularly evaluating electrical systems, you're investing in a safer workplace, reducing incidents, fostering employee peace of mind, and demonstrating your commitment to a safety-first culture.

### COMPLIANCE

***Stay ahead of regulatory requirements.***

You can align your facility with the latest safety and industry standards, streamline audits, minimize regulatory issues, and protect your organization from costly operational interruptions.

### RELIABILITY

***Maximize uptime and productivity.***

Electrical evaluations ensure your systems run at peak performance. Fewer unplanned outages mean more consistent production, less reactive maintenance, and more time focused on what you do best: delivering for your customers.

### CAPACITY

***Empower growth and flexibility.***

Understanding your current electrical infrastructure allows you to plan confidently for expansion or process changes. Evaluations identify opportunities to optimize or upgrade, ensuring your facility can quickly scale to meet new market demands or business opportunities.
